25 YEAR RE-REVIEW

**6. Orientation on Electronic Countermeasures**

Mr. [ ] are attending at the National Security Agency a 2 1/2 day orientation on electronic countermeasures presented by the ECM Familiarization Staff, Keesler Air Force Base, Mississippi. [ ] also attended the first half-day's instruction. As a result of their conversation with Mr. [ ] and Mr. [ ] concluded that there may be a slight problem in getting Mr. [ ] to restrict our instruction to what the DD/P case officer needs to know about ELINT as opposed to some of the theoretical subject matter which Mr. [ ] feels the case officer "should know." [ ] expressed the feeling that if we get too far out of line in this respect, we will lose the DD/P students almost before we get started. Mr. [ ] feels that in using [ ] in connection with previewing the presentations, we should be able to avoid this.

**7. Personnel**
